

# Readvolution Writing Contest

Topic: Why is reading important to me?

Author: Saanvi Garcha, 2<sup>nd</sup> grade, Fuller Elementary, Ms. Gizzi

Reading is important to me because I can learn many concepts and facts to increase my general knowledge. Reading is also important to me because I can visualize what is going on in the story using my own imagination. Reading lets me create the characters and settings in my own way. This motivates me to write my own stories, too! It helps me develop better comprehension and understanding.

Another reason why reading is important to me is because I can learn more about people, cultures and languages. It is like I'm traveling to different places. Books are like best friends. They give me good company. They also help me get relaxed and sometimes excited and curious. They are with me wherever I go and they teach me about anything and everything I want to learn about. Most importantly, it makes me really happy when I read. 😊
