I like to read. Reading is important to me for a few reasons. First, I want to be an author when I grow up. Reading gives me ideas for my stories and helps me think about what can happen in life.

Books help me learn about lots of things, like people, life, authors and animals.

There are many topics that interest me.

I like funny stories, scary stories and princess stories. When I read these types of stories, I imagine that I am the main character. It helps me think about what the character is going through and what I would do if I was in their situation.

Finally, reading nonfiction is important to me because information from books makes me smart. I want to read informational text books to learn new information.
